PAYMENT BY WIRE TRANSFER

Bank or wire transfer is not a common form of payment for routine business in Canada or the United States. The North American system for handling bank or wire transfers is relatively expensive and cumbersome, especially for small sums of money. However, for international customers not accustomed to paying by credit card, bank or wire transfers may be the best fast payment option available to pay for orders or to pay balances owing on their account. Please note that all international customers must pay in United States Dollars (USD).

Add The \$20 Wire Transfer Fee

Because our bank charges us \$20 to receive payments by wire transfer, you must add \$20 to the amount you wish to pay to Richters. For example, if the amount owing to Richters is \$400, then you must transfer \$420 so that the net amount received by Richters is \$400.
